Gas Technician

www.dougтарыhomes.com/career

We are looking to hire a Gas Technician. Reporting to the General Manager, the Gas Technician ensures the safe, reliable, and code-compliant installation, service, and maintenance of gas fireplaces, furnaces, heat pumps, and related HVAC systems. This role supports both residential and commercial clients by delivering high-quality workmanship, resolving technical issues efficiently, and providing excellent customer service in retrofit and new construction environments.

Some of the tasks will include:

- Install, service, and maintain gas fireplaces, furnaces, heat pumps, and related HVAC systems, gas piping, and ventilation systems.
- Perform retrofit installations in existing homes, ensuring safety, compliance, and minimal disruption.
- Work on new construction projects, coordinating with builders & trades to complete rough-in & final installation.

The following skills are needed:

- Valid Gas Technician 2 (G2) license and 313D certification is required.
- Valid Gas Technician 1 (G1) and/or 308A certification is preferred.
- Minimum of 2 years experience in gas appliance installation, with a focus on fireplaces
- Strong understanding of venting systems, gas piping, and HVAC controls.
- Comfortable working in both retrofit and new construction environments.
- Proven problem-solving skills and strong attention to detail.
- Excellent customer service and communication skills.

If this sounds like you, we invite you to submit an application to our organization by emailing Heather Fletcher at HR@dougтарыhomes.com. At Abode Home Comfort Ltd, we are a team, we hold each other accountable to our values. We are a forward-thinking organization that is rapidly advancing in a high-performance sustainability sector and need like minded individuals to work with our stellar team!

We thank all applicants for their interest, however only those candidates selected for interviews will be contacted.
